SUMMARY

A college and bootcamp graduate seeking a career in software engineering. Professional experience with React and Next.js full-stack development, relational and non-relational databases, and the containerization and deployment of web applications. I am a problem solver that enjoys working with a diverse group of developers, or leading projects independently.

EXPERIENCE

W Brand Studio, Costa Mesa - *Full-Stack Web Developer*

MAY 2023 - PRESENT

- Directly worked with 5 clients to improve their websites' design and/or features after website deployment.
- Built mobile-first UI designs for 6 companies.
- Incorporated REST APIs in 3 React and Next.js applications.
- Created a web scraper to gather and compile data, increasing efficiency by 60%.
- Coordinated with colleagues to handle 100+ tickets using kanban methodology.
- Reduced merge conflicts by 55% using Git version control.
- Pitched 10+ programming solutions during stand-up meetings.

Instacart, Los Angeles - *Instacart Shopper*

JANUARY 2022 - MAY 2023

- Handled all delegated tasks, including shopping, recommending optimal product replacements, and delivering groceries.
- Attained a customer service rating of 4.5 out of 5.0.

Haynes Education Center, La Verne - *1:1 Aid*

AUGUST 2019 - AUGUST 2021

- Assisted teacher with managing 1 - 12 students during class activities.
- Developed lesson plans and individually taught 2 students with autism spectrum disorder.
- Supervised and reinforced positive behavioral skills during school hours and field trips.
- Escorted 7+ students to and from campus.
- Spearheaded or advised de-escalation techniques and decompression of dangerous behaviors to reduce potentially violent situations.

EDUCATION

Coding Dojo, Los Angeles - *Python, MERN, and Java Certificates*

AUGUST 2021 - DECEMBER 2021

- Earned each certificate by creating an MVP within 2 hours.
- Collaborated with classmates in 3 pair programming projects.

University of California, Irvine - *B.A. Philosophy*

AUGUST 2014 - JUNE 2019

- Achieved an average GPA of 3.6.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Python, Java, SQL, & NoSQL
